CITY MUNICIPAL COUNCIL
P B No 17

Mysore Dated 6th Sept 1955

FROM

THE MUNICIPAL COMMISSIONER

CM 4655-38 City Municipal Council

MYSORE.

To

The Secretary to Government,
L S G and Education Departments,
Bangalore 1
(Through the President)

Sir,

Subject Purchase of Power Bucket Machine for cleaning up of sewers

Reference G O No L 12957-9/CM 42-54-53 dated 22-1-1955

In the Government Order quoted above, the Government were pleased to accord sanction to the proposal of the Municipal Council to purchase a Flexible sewer road equipment from Messrs Garlick & Co Madras, at a cost of Rs 15725/- F O R Bombay Orders have been placed through the Stores Purchase Committee and the receipt of the equipment is awaited

This equipment could be used by for relieving ordinary chokages In addition to the Flexible sewer road equipment, in Bombay, another machine termed as "Power Bucket Machine" is also in use I had an opportunity to see the working of both the Flexible sewer road equipment and the Power bucket machine when I happened to be at Bombay While the sewer road equipment relieves chokages, the power bucket also removes silt The illustrated pamphlet enclosed gives an idea of the machine The deposit of silt is a very big problem in the underground drainage systems of the cities in India where sand, jute etc , are used for cleaning vessels and which ultimately find their way into the sewer system Therefore, if the system has got to be maintained properly, some efficient method of removing it has got to be adopted Further, when the City is sewered completely as per programme now sent up to Governmen the necessity for such a machinary will be more keenly felt For these reasons I placed a proposal before the council that this

machine may also be purchased at a cost of Rs 22,000/- ex-Godown, Bombay as per quotation received, so that it could be operated in the various parts of the city according to a regular programme It may here be mentioned that the flexible sewer rod equipment and the power bucket machine are complementary to each other and together will be very useful in maintaining the system well At their meeting held on 5-9-1955, the Municipal Council approved of the purchase in principle and to my proposal to make due provision for the same in the Budget for 1956-57 I herein enclose copies a copy of the resolution and request that orders of Government may kindly be obtained sanctioning the purchase during the year 1956-57, so that, on the strength of the sanction, necessary provision could be made while framing the Budget

Yours faithfully,

(N Lakshman Rau)
Municipal Commissioner
